

THE RUMPKE RECYCLING & RESOURCE CENTER

More Space, More Technology

Who is Rumpke Waste & Recycling?

Rumpke Waste & Recycling is a family-owned and operated company and has been in business for over 90 years. The company serves more than 1.9 million residential, commercial and industrial customers throughout the United States, including 500 municipalities and public entities. The company owns or operates landfills, transfer stations and recycling centers in Ohio, Kentucky, Indiana, Illinois and West Virginia. With a fleet of nearly 3,000 hauling vehicles and a workforce of approximately 4,000 employees, Rumpke is a leader in solid waste and recycling solutions.

About The Rumpke Recycling & Resource Center

1190 Joyce Ave., Columbus, OH 43219

- This \$100 million investment is the largest and most technologically advanced recycling facility in North America.
- Employs 60 people in just the recycling facility.
- The building is 226,000 square feet total.
- State-of-the-art recycling equipment includes four ballistic separators, 19 optical scanners and Artificial Intelligence technology.
- In collaboration with COSI and The Ohio State University, Rumpke developed an Education Floor featuring an interactive exhibit and research center. The elevated tour platform is 150 feet long and 45 feet high from the processing floor.

Processing & Capabilities:

- Process 150,000-250,000 tons annually from nearly 50 Ohio counties.
- Processing speeds of 60 tons per hour.
- Expected recovery rates are 98%.
- Hydraulic lift “Tipper” can unload 50’ trailers of material.

Fueling a Circular Economy:

Rumpke supplies recycling to manufacturers within a 250-mile radius of our facilities. 80% of our materials go to Ohio companies. As a Recycling Leader, Rumpke secures long-term partnerships to develop recycling solutions in the Midwest:

- ADS-Advanced Drainage Systems
- Eastman
- Phoenix Recycling Inc.-Plastic
- PureCycle
- Pratt Paper
- Axiom Packaging
- Greif
- OI Glass Recycling

Sample Station:

To increase local sustainability efforts, inform and create transparency, our customers can utilize the recycling center’s Sample Station. Our sampling capabilities will provide a quick and accurate recycling audit to help customers effectively measure their recycling program’s success or identify necessary adjustments.
